

Diego COGLITORE – CV

Diego Coglitore graduated in Biomedical Engineering from the Sapienza University of Rome and obtained a doctorate in Nanosciences from the University of Liverpool. After graduating he first worked in industry as a production manager in biomedical device companies (Rieti), and then embarked on a career as a researcher working first in the UK (University of Liverpool), then in France (Institut Européen des Membranes, Montpellier) and finally in Italy (CNR Nanotec, Lecce). He then worked as a consultant for research and development projects both from a European and national perspective, finally joining APRE in 2022. Here he deals with the activities relating to Cluster 4 – Digital, Industry and Space and the management of the NCP4Industry project, the network of national contact points for Cluster 4. During his career he has participated in European research and development projects with various TRLs both as a researcher and in their management: Horizon Europe and Horizon 2020 projects, Life programme, Urban Innovation Action, Connecting European Facilities , European Innovation Council.
