

Federica DE GAETANO - CV

Federica De Gaetano is Researcher (S.S.D. CHIM/09) at Department of Chemical, Biological, Pharmaceutical and Environmental Sciences of the University of Messina. PhD in Chemical Sciences in 2022 at the University of Messina. Co-author of 16 scientific publications on the major international journals in the sector. Speaker and invited speaker at numerous National and International Conferences. Her current research interests include preparation, characterization and in vitro and in vivo biological evaluation of drug delivery systems, specifically, micro and nanoparticles based on hydrophilic and lipophilic polymer, lipid nanoparticles and drug/cyclodextrin inclusion complexes. She is currently part of several national and international scientific societies, such as A.D.R.I.T.E.L.F., CRS Italy Chapter and SCI.
