

Sara Falsini - CV

Sara Falsini obtained her degree in Biology (2010) and a Ph.D. in Biomedical Science (2014) at the University of Florence, Italy. In the later years, she has approached the sustainability field and has taken part in a H2020 project on eco-compatible procedures (MEDEAS). She is also involved in a project financed by the Tuscan Regional Government (ECOMAPS) where she coordinates a blog for informing people about waste and the circular economy. Since 2019 she is working for the Green Office of the University of Florence on a project regarding the management and innovation in environmental sustainability. Currently, she is a research fellow at the Department of Biology on a project on the effect of microplastics on plant organisms.
