

**Greta LOMBARDI-CV**

Graduated with a bachelor's degree in industrial engineering from eCampus University in January 2023, she is currently a research fellow at the same School, collaborating with the research group in the scientific-disciplinary sector ING-IND/09 - Systems for Energy and Environment. Greta is involved in the development of advanced mathematical models for the dynamic analysis of energy systems powered by renewable sources, with particular focus on solar systems and solid oxide fuel cells.
