

## **Alessandro MORDINI - CV**

Dr. Alessandro Mordini: MS degree in Chemistry from Univ. Florence (1983). PhD degree in Chemical Sciences from Univ. Florence (1987), post-doctoral fellow at Lausanne (1984-85; 1988-89; 1992), Researcher at CNR – Firenze (1987-1991), Senior Researcher at CNR – Firenze (from 1991), Director of Research CNR-Firenze (from 2010). Visiting Professor at Kyoto University (2001). Co-author of about 125 publications in peer- and editor-reviewed international scientific journals, 18 book chapters, 2 patents. Invited lecturer at more than 30 international conference and Universities. Recipient of Premio alla Ricerca “Chimica Organica per l’ambiente, l’energia e le nanoscienze”, assegnato dalla Divisione di Chimica Organica della Società Chimica Italiana, 2022. Main current scientific interests include: development of innovative methodologies and low environmental impact processes. New dyes for dye sensitized solar cells.
