

Giacomo PRAMPOLINI - CV

Giacomo Prampolini got his Ph.D. in Chemical Sciences in 2005 at the University of Pisa. He was thereafter postdoc at the Universities of Pisa, Naples "Federico II" and Scuola Normale Superiore. In 2011 he was appointed research scientist at the Italian National Research Council. His research interests are in computational and theoretical chemistry and focus on *in silico* design of advanced materials, ranging from supra-molecular assemblies to electro-optical devices, through the development of multi-level integrated protocols. He has published more than 100 papers in peer-reviewed journals.
