

## **Michele RE FIORENTIN - CV**

I graduated in physics at the University of Torino (2012) and got my PhD in theoretical physics from the University of Southampton, UK (2016). Formerly a researcher at the Center for Sustainable Future Technologies of the Italian Institute of Technology (2017-2022), since 2022 I have been Assistant Professor at the Polytechnic University of Torino. My research is mainly focused on first-principles simulations of materials for CO<sub>2</sub> electroreduction and green applications.
