

Elena STELLINO - CV

Elena Stellino is a researcher at the Department of Basic and Applied Sciences for Engineering (SBAI) of Sapienza University of Rome. She obtained her Master's degree in Physics *cum laude* in 2018 at the Department of Physics of Sapienza University of Rome, and her PhD at the Department of Physics and Geology of the University of Perugia in 2021. Her general research field is the Solid State Physics investigated from the experimental point of view. In particular, her activity has been mostly directed toward the study of the optoelectronic and vibrational properties of functional materials, like 2D semiconductors and perovskites, by high-pressure optical spectroscopy.
