

Diana VARDANYAN - CV

Diana Vardanyan is a Postdoctoral Fellow specializing in Comparative Anatomy and Cytology at Sapienza University of Rome. She recently finished her Ph.D. in Comparative Anatomy and Cytology from Salento University in June 2023. Diana's research is focused on the biology and microscopy techniques of extracellular vesicles, that represent the primary area of interest. She is proficient in cutting-edge microscopy techniques, including Transmission Electron Microscopy, Atomic Force Microscopy, Cryo-EM and Confocal Microscopy. She has received prestigious awards in National and International conferences, such as the Best Oral Presentation Award at the Nanomedicine-derived Therapeutic and Diagnostic Approaches conference China 2023, and the Best Oral Presentation Award at the 68th Congress of GEI- SIBSC.
