

Alessio VARESANO CV

Alessio Varesano is Senior Researcher at CNR-STIIMA (Consiglio Nazionale delle Ricerche - Istituto di Sistemi e Tecnologie Industriali Intelligenti per il Manifatturiero Avanzato) in Biella. His main research activities include nanofibres production for biomedical applications and electrospun membranes for filtration and personal protection equipment, and developing innovative textile materials and new finishing for textiles (electrically conducting polymers, antimicrobial polymers and nanoparticles, pH-sensitive and natural dyeing). He is responsible for the Pilot Plants and Laboratory Facilities.
