

Alessandro ZAMBON - CV

Alessandro Zambon is Assistant Professor at University of Bologna. He has a Master Degree in Chemical Engineer (2009) and a PhD in Industrial Engineering (2013) from University of Padua (Italy). EU-FORA Fellows (2022-23) at the Polytechnic University of Cartagena (Spain). He has published over 38 peer reviewed research articles, 1 book chapter and 2 patents. He gained interdisciplinary research between biotechnology, food science and engineering. He is expert in microfluidics and innovative food technology, food microbiology and food chemistry. Specifically, he has contributed to the application of supercritical CO₂ treatments as a low temperature inactivation technology for food.
